# WHO WE ARE

**Tripledots Software Services Pvt. Ltd.** is a leading full-service web design and development company that has been consistently developing software solutions helping our clients remain one step ahead of the competition. Based out of Ranchi, we strongly believe that business needs can only be met when technology is sync with business process. We pride ourselves in serving our clients' needs for multi-dimensional IT services that cater to first-rate software development, internet strategy, and design solutions for our clients.

We provide unparalleled services to our clients from diverse industries, including **Healthcare, Tourism, Real-Estate, Manufacturing, Hospitality, Online Media Houses, Banks**, and more. We comprehend that for the success of any project, three components are of paramount importance – Time, Quality, and Support.

To achieve customer satisfaction, our planning and quality control team ensures that your projects are designed to be delivered on time. Also, we place greater emphasis on assuring you of the project quality. We never compromise with the quality as it is something that drives all of us at Tripledots to deliver the best of the best.

## MISSION

Our mission is to deliver our clients the top-notch service and support, enriching customer experience; hence, becoming the most successful Software Company in terms of quality, growth, revenue, and market share.

## VISION

Our vision is to be the largest provider of highly effective and innovative web solutions with a reputation for helping our client outperforms their competitors.

## Core Values

- Integrity
- Efficiency
- Responsibility
- Commitment
- Teamwork

# OUR SERVICES

We know and understand the client's unique needs and fulfill them not only to their satisfaction, but also surpass them beyond their expectations. We are highly devoted to providing the most reliable products and services of the highest standards in the domain of IT services.

Website Designing

# DEVELOPMENT PROCESS

In the software development service, we employ several various software development models. However, it depends on the development team and the project to be accomplished. The process, which is integrated evidently, classifies the steps of the SDLC (short for Software Development Life Cycle). In other words, it is an extremely organized process with accurate procedures and stringently defined steps.

# TECHNOLOGIES WE USE

**Prototypes and Graphics** - Adobe XD, Adobe Illustrator, Adobe Photoshop, Adobe Indesign, CorelDRAW

**Web (Application) Development** - Javascript, JQuery, Ajax, XML, PHP & MySQL, .NET, & MS Sql, Python

**Content Management System** - Wordpress, Joomla, Drupal, Php & MySQL (For Custom CMS)

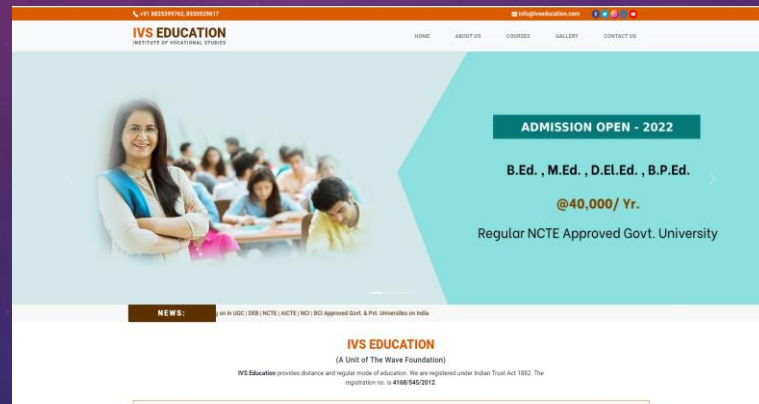

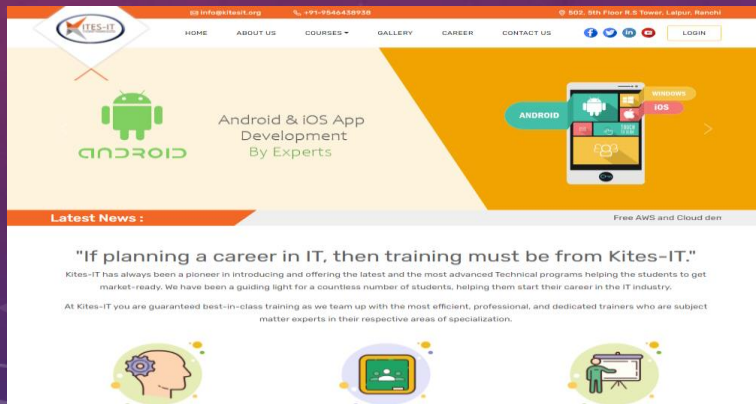

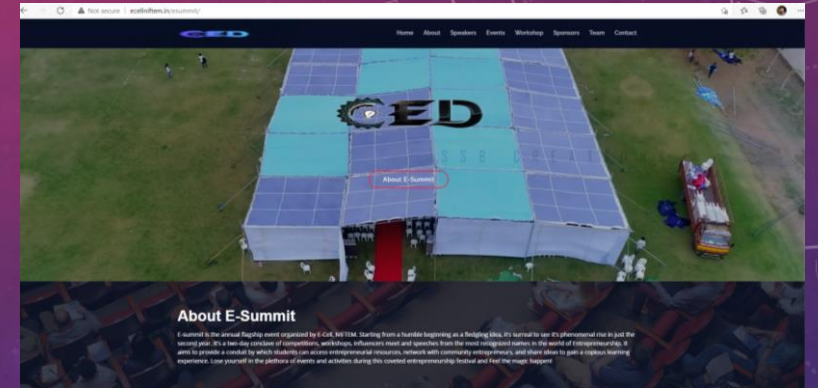

**Mobile Application** - Android Studio, Java, Flutter, Kotlin, Python, Firebase

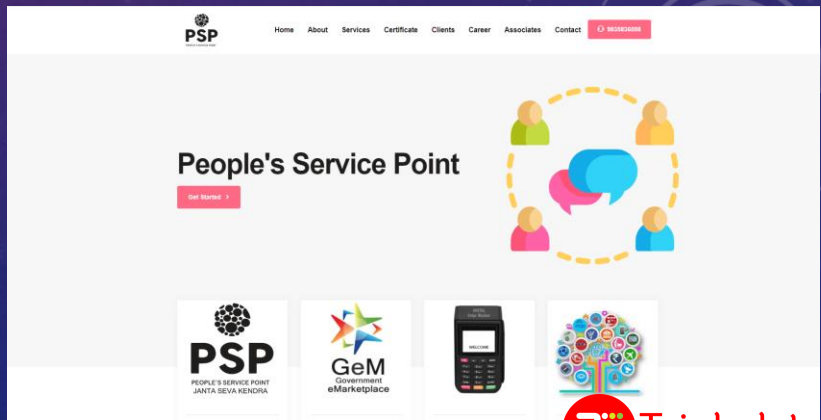

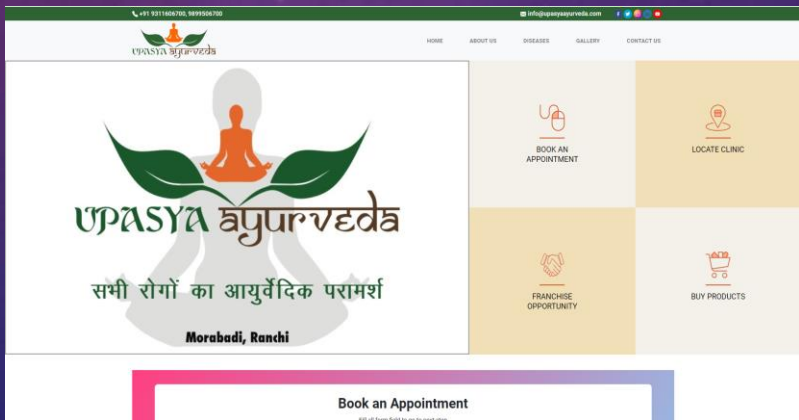

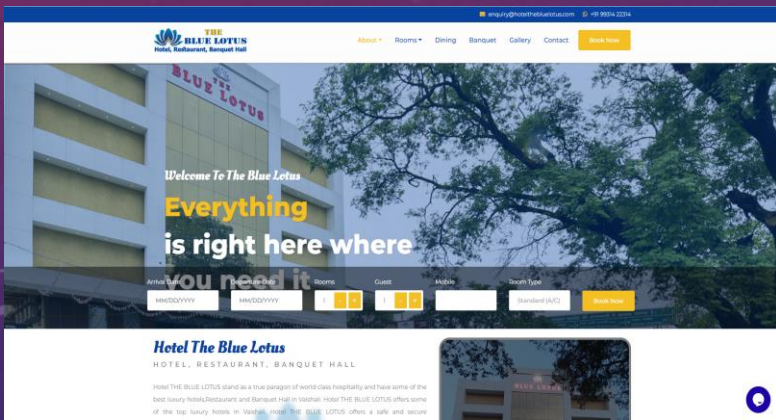

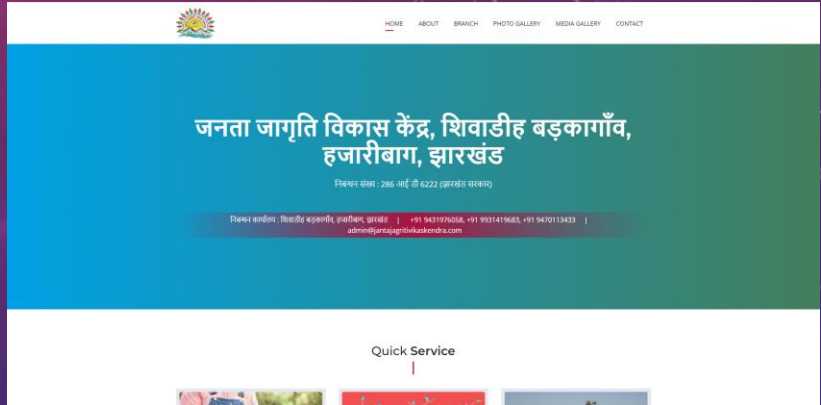

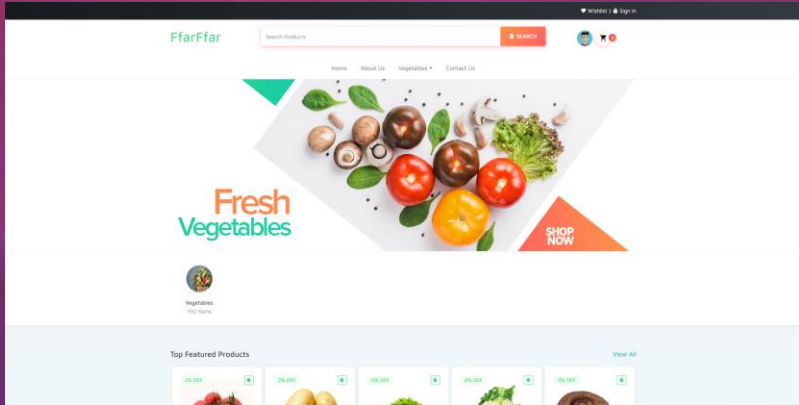

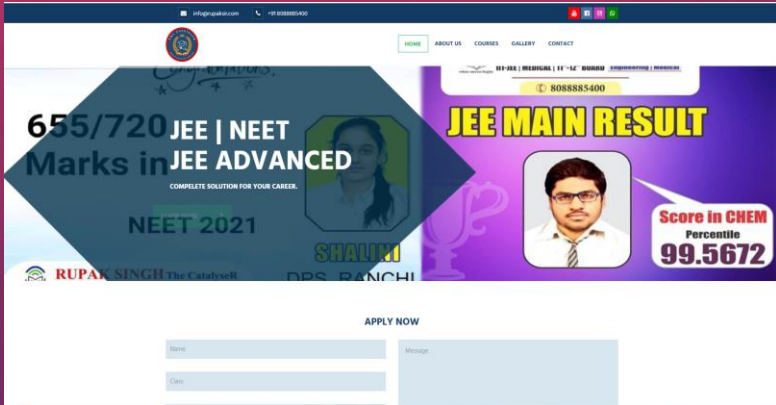

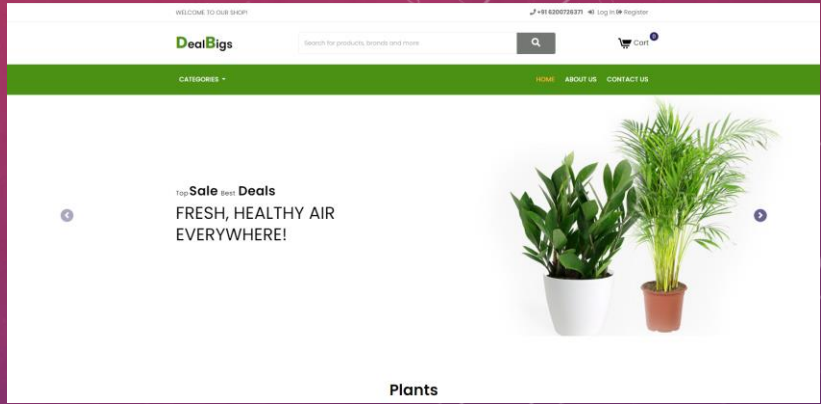

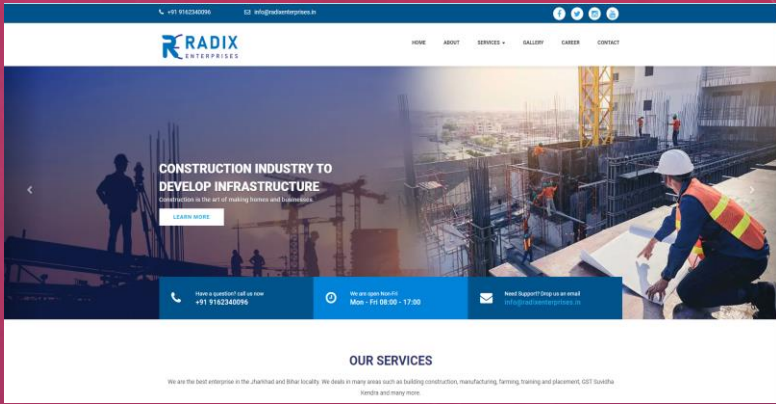

**Software Development (Windows & Web)** - Microsoft Visual Studio .NET, MS Sql

# PORTFOLIO

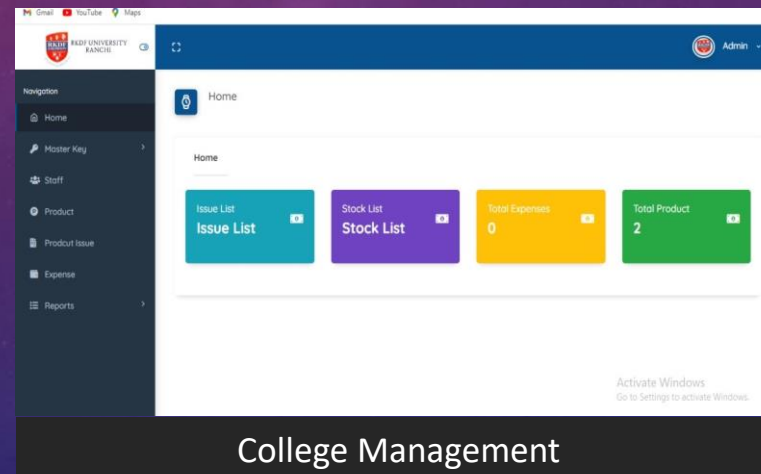

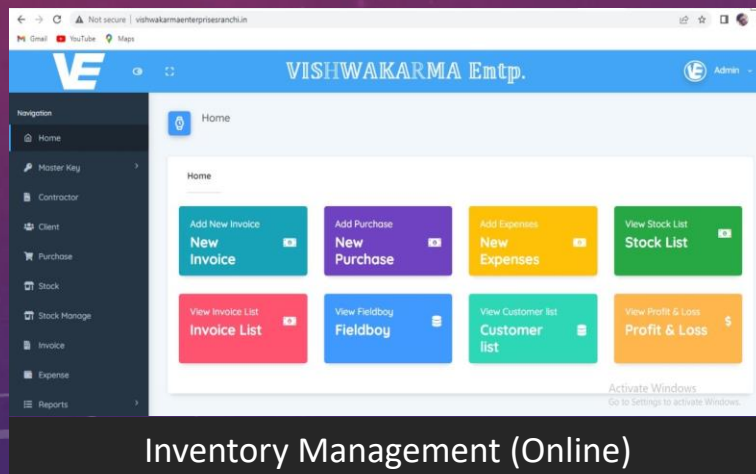

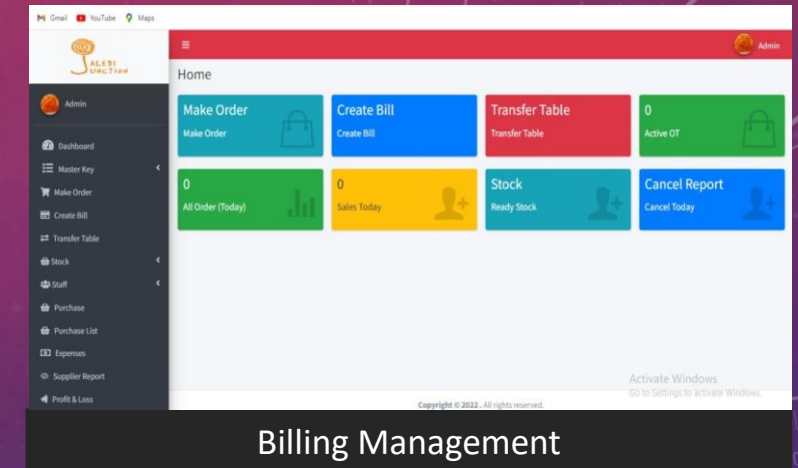

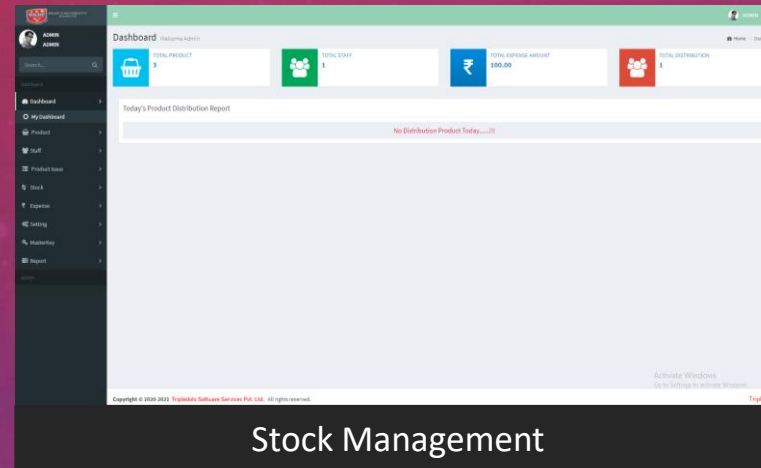

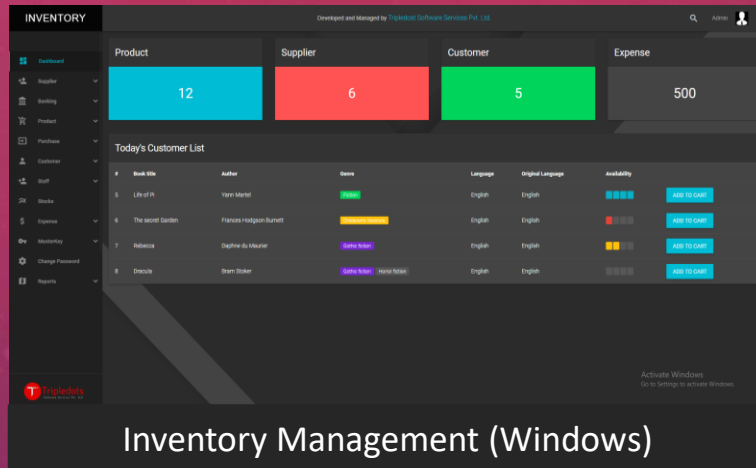

## ( Website Design & Development )

# SOFTWARE DEVELOPMENT

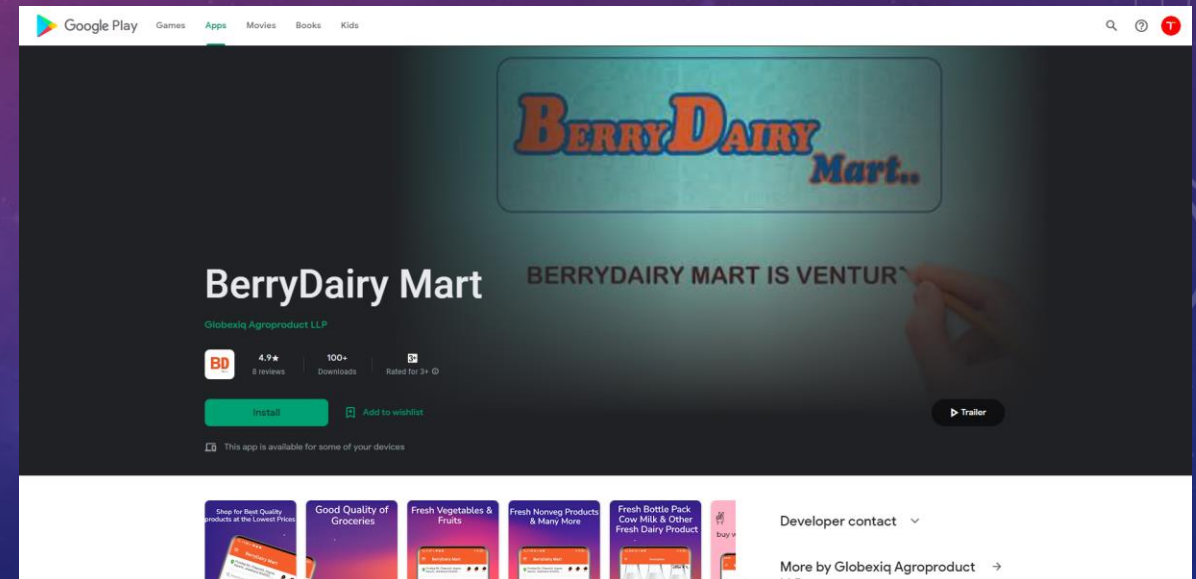

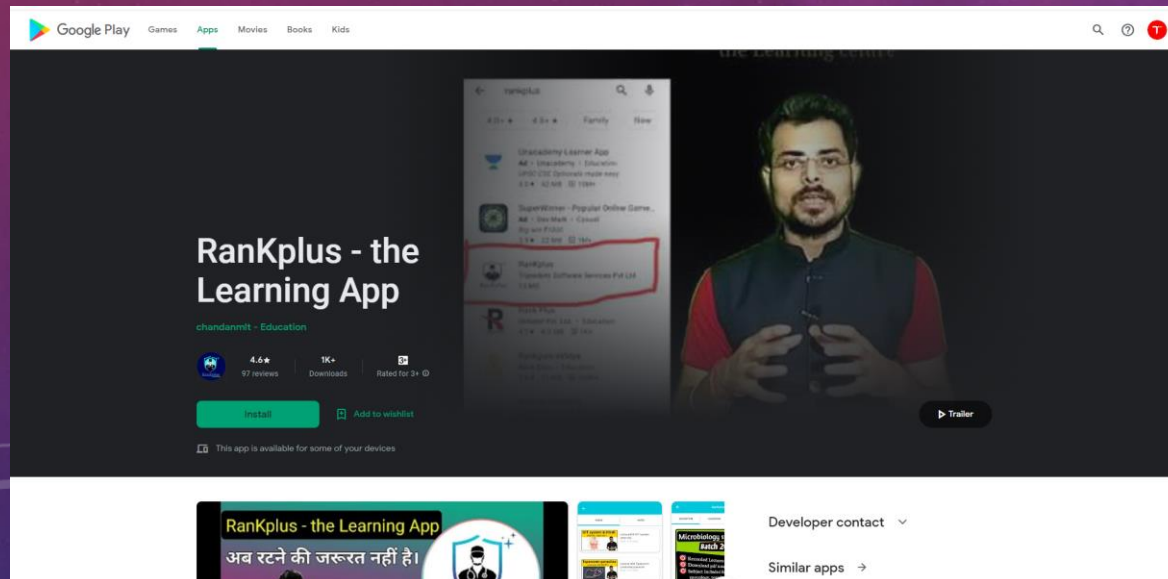

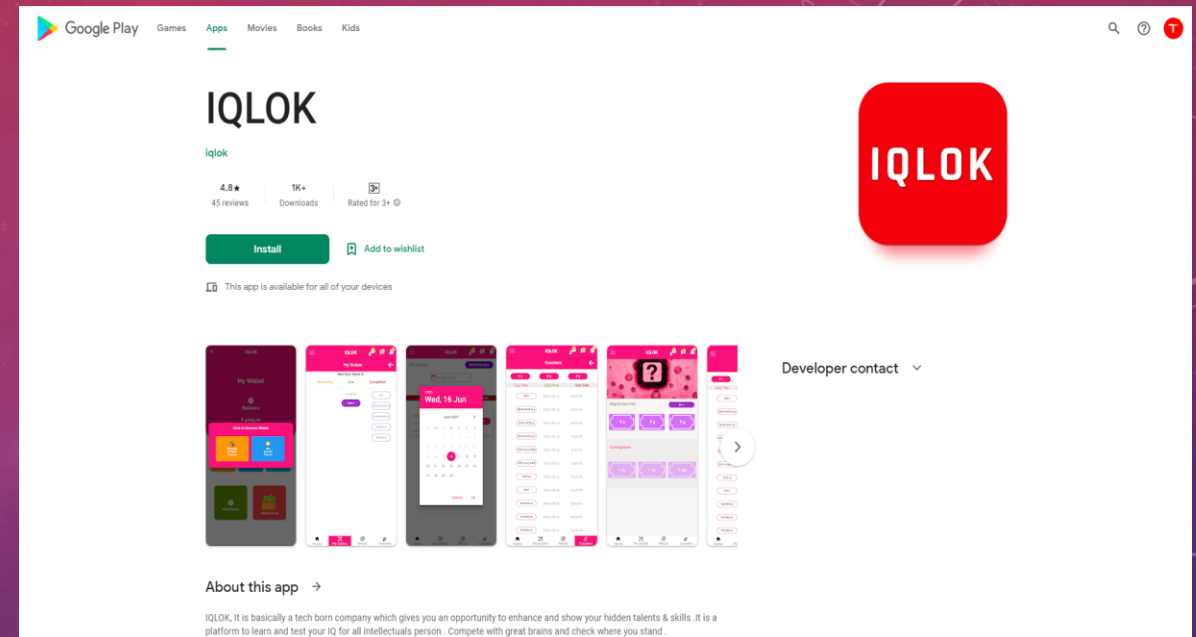

# Mobile App Development

Mobile Apps is the best solution for the business in today's situation, due to pandemic (Covid-19).

The mobile app keeps the business active even in complete lockdown. No loss of revenue and stay connected with your customer.

So invest once and it will return forever. It's only a hoax that the app development is a penny. Pricing is totally up to your requirement.

# Customer Ratings ★★★★★

I have a mobile shop, during lockdown, I was in a huge loss in my business. Tripledots suggested me to take my business online. I opt an e-commerce service to sell my phone online. Tripledots team delivered the same as per my requirement. From that day to now my sales is increasing day by day and customer base has become double. I would like to thanks Tripledots Software Services Pvt Ltd for their wonderful support and services.

This company regards deadlines and they are great at team management. During the project, we expanded the team many times and all of the contiguous specialists had not only effective technology background but also a great understanding of our subject field. I also want to focus on their ability to think strategically and create considerate solutions, instead of just developing project according to a specification. We are always sure that Tripledots complies with all its obligations they have.

**Response from the owner** a year ago  
Thank you Annu Gupta

I wanted to build an eHealthcare system. Out of 10 companies, I'd contacted 9 told me it was possible but gave me an unrealistic range of amount for the prototype, while Tripledots helped me in my project and prototype it for just a little amount of what others would have charged to me.

**Response from the owner** a year ago

Interesting to read your review Mr Ugdeo Kumar. It will help other customers to know that our pricing is reasonable.

Tripledots built my android mobile application a few times ago and I'd highly recommend it to others as they're a truly reliable provider. What's more important - they don't just code like other companies but provide clear guidance for market and success.

**Response from the owner** a year ago

Saurabh Sahni, Nice looking your 5 Stars 🌟. Such compliment produce energy in our team.
